ACKNOWLEDGEMENT

It gives as a great pleasure and satisfaction in present in this report on our Project work as a part of partial fulfilment for the Bachelor Computer in sincere gratitude to several people, it would have been impossible for us to carry out the desired work

We would like to express our sincere thanks to **Mr.Jigneshbhai Nayakpara** and **Mr.Amitbhai kaila** for their Guidance throughout the project. We would like to acknowledge the Staff an Online Advertising Agency for their co-operation and contributions that played an important role in the successful accomplishment of the Project.

We would like to express our heartfelt thanks to **Mr.Rakeshbhai Solanki** for their constant support and Encouragement during this phase and forgive us valuable suggestions time to time.

Last but not least we are thankful to our FAMILY members and Friends for their silent co-operation and passion, and to all others known and unknown person who helped us in this duration.

Your Faithfully

- Jaydip Rathod

- Nitin Makwana

PREFACE

The Project Report is submitted as a part of the course leading to the Bachelor of Computer Application conducted by Parangat College of Computer Science, Halvad.

The project work invoked the development testing and implementation of the High Profile Graphical Designs and Printing Solutions.

The structure development process like process diagram, ER-diagram and input output layouts are made use of while discussing the system thus insight to the System Development Life Cycle (SDLC). The technical sorts and technology used in the application are well in the report at the appropriate place.

Anyone interested knowing how the application works is a candidate reader for this material. It can serve as the Administrators manual as well as self - study.

The objective of this report is to provide both conceptual and understanding of the system as well as working guide.
